PROFESSIONAL SUMMARY

Full Stack Developer and AI Product Developer with 2+ years of experience building scalable web, mobile, and real-time applications using Next.js, NestJS, React Native, and AWS. Experienced in developing production-grade platforms, Telegram Mini Apps, real-time gaming systems, AI-assisted workflows, and cloud infrastructure. Skilled in end-to-end product development, CI/CD pipelines, deployment workflows, and startup-focused execution.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, Tailwind CSS, JavaScript
Backend: NestJS, Node.js, REST APIs, WebSockets, Socket.IO
Mobile Development: React Native, Swift, iOS Development
Database & ORM: PostgreSQL, Redis, Firebase, Prisma
Cloud & DevOps: AWS EC2, Docker, CI/CD, GitHub Actions
Tools & Platforms: Cursor, Claude, Jira, Slack, Telegram Bot API
Specialized Areas: Telegram Mini Apps, AI Workflow Automation, Product Development, Real-Time Systems

EXPERIENCE

Revelin7 Technology Pvt Ltd <i>Full Stack Developer & AI Product Developer</i>	Aug 2023 – Present <i>Remote</i>
- Built scalable full-stack applications using Next.js, NestJS, PostgreSQL, and AWS for startup and enterprise clients. - Developed cross-platform mobile applications using React Native and integrated backend services using NestJS APIs. - Engineered real-time gaming systems and Telegram Mini Apps using WebSockets and Socket.IO for interactive user experiences. - Designed and deployed cloud infrastructure using AWS EC2, Docker, GitHub Actions, and CI/CD workflows. - Built dashboards, monitoring systems, and data stream infrastructure for compliance and analytics platforms. - Developed and maintained backend architectures with authentication systems, scalable APIs, and database optimization. - Leveraged AI-assisted development workflows using Cursor, Claude, and automation tooling to accelerate feature delivery and rapid prototyping. - Collaborated with product teams using Jira, Slack, and agile workflows in fast-paced startup environments.	

PROJECTS

Vimtara | *Next.js, NestJS, PostgreSQL, AWS*

- Developed scalable compliance dashboards and backend infrastructure for statutory monitoring workflows.
- Built real-time data stream systems and API-driven architecture for operational insights and reporting.
- Implemented deployment workflows and cloud infrastructure management using AWS services.

Orbit App | *React Native, NestJS, PostgreSQL*

- Developed cross-platform mobile application features with scalable backend APIs and authentication systems.
- Integrated real-time communication systems and optimized application performance for mobile users.
- Contributed to backend architecture improvements and production deployment workflows.

String Roulette Telegram Mini App | *Next.js, NestJS, WebSockets, Socket.IO*

- Built complex real-time roulette gaming functionality for String Metaverse Pvt Ltd.
- Developed Telegram Mini App with real-time multiplayer communication and socket-based interactions.
- Optimized backend logic and event handling systems for low-latency gaming experiences.

Alan Dyck iOS App | *Swift, NestJS*

- Developed iOS application features and backend integrations for App Store deployment.
- Built scalable API integrations and optimized mobile application workflows for performance and reliability.

EDUCATION

Chandigarh Group of Colleges, Landran <i>Bachelor of Technology in Computer Science & Engineering — CGPA: 7.8</i>	2020 – 2024 <i>Punjab, India</i>
